

## County Councillor Report for July 2019

**Highway Issues:** There will be consultation prior to consideration of a Traffic Regulatory Order (TRO) for closure of Golf Club Lane, new crossings on main road and establishing a 20 Mph zone in R+M. The culvert repair on Llantrisant Road will begin on 22 July and may last 3 weeks. This has caused a great deal of angst due to the various messages being unclear, particularly the early one issued by Pentyrch CC; the road will be blocked near the turn to Creigiau but the road up to that point will be accessible; the TRO on HGVs on Heol Isaf will not be lifted. An earlier disruption near Westward Hoe was inadequately publicised; it was a quick decision based on an emergency but, had I been consulted or informed, we could have assisted residents by giving notice and we could have asked Redrow to provide more effective supervision.

**CEMEX;** I have asked CEMEX to try harder to keep Tynant Road free of mud and grit.

**Upper Drysgol Road:** I met the relevant officer to show the need for repairs to the pavement and it is now being resurfaced.

**Gwaelod School:** at present part of the ward is in the catchment for Welsh medium education at this school; pupils living to the south of the M4 are not. I have asked for a re-run of the consultation to rectify this anomaly.

**Bank holiday refuse collection;** this occurs on a Tuesday at present and it is likely that it can now be done on a Monday, as normal,

**Planning gain wish list:** with the community council, I am submitting a list of desirable additions to the ward if any S106 cash is available

**Radyr Library:** next litter pick is on 17<sup>th</sup> July; RSPB event for children is on 16<sup>th</sup> August; bridge classes start on 19 September with 12 weekly 2-hour sessions at a total cost of £72.

**County Councillor Rod McKerlich, 16<sup>th</sup> July 2019**
